MUNICIPALITIES OF HERCEG NOVI

Dear Sirs,

Herceg Novi is the old city born in 1382, at the entrance to the deepest and most beautiful bay of the Mediterranean and the southern fjord in Europe, under Orijen, the highest mountain on the Adriatic (1895m.).

Herceg Novi is the center of the municipality of the same name, which stretches from the border crossing Debeli Brijeg to the narrowest part of the Bay of Kotor, on a total area of 235 km² and has about 33,000 residents. The total length of the coast of the Municipality of Herceg Novi is 45,235 km

His authentic cultural heritage is thousands of years old, with 89 religious monuments dating from the IX to XIX century, which sprang up and grew together with the population of this area, the City carefully cultivated and preserved as a testimony.

Herceg Novi is now tourism and cultural mecca. It has grown into a city of festivals, music, books ... the city that leaves no one indifferent.

WELCOME TO HERCEG NOVI AND IGALO

Herceg Novi is located at the entrance of one of the most beautiful bays - Boka Kotorska, immersed into lush vegetation, surrounded by six hundred year old fortress and ramparts.

The city was founded in 1382. and it was known by the name Castrum Novum - Castel Nuovo. Every imperial and mayor power – the Turks, the Venecians, the French, the Russians, the Austro - Hungarians - left significant traces of their civilization in numerous fortifications and in sacral and other constructions: Bloody Tower, the fortress called Spanjola (the Spanish fortress), fortress Mamula and Arza, Monastery Savina, churches: St. Sava, St. Jeronims, St. Leopold Manic etc. On the territory of the Municipality there are 89 churches: 75 Orthodox and 14 Catholic. That is why Herceg Novi has a treasury of different styles, from oriental to baroque architecture.

Herceg Novi is “a stone picture and master piece of civilization, but it is also a marvelous botanic garden”, town of the etyma greenery, sun and promenades.

Herceg Novi Riviera - is unique oasis of eternal greenery, exotic plants – over the 250 species of various exotic plants, originating from all continents: eucalyptus, agaves, magnolias, araucaria ... and the famous mimosa, whose golden yellow flowers exotic scent became a symbol of Herceg Novi Riviera, and whose glory is in January and February organized in Europe, the famous “mimosa Festival” as part of its program and our fishing “Mimosa Cup”, carnivals, maschenbals, and more other events, becoming a new touristic season.
